

## **II. REMARKS**

Applicant appreciates the Examiner's allowance of claims 1-22 and 34. Claims 23-33 have been amended with the Response. No new matter is added with the amendments.

Claims 23-33 were rejected under Section 101 as allegedly being unpatentable. Specifically, the Office Action alleges that the claims were not on a computer-readable medium and the instructions are not in executable form.

Each claim has been amended to recite a computer-readable medium and that the instructions are executing. It is therefore believed that all claims are allowable. If a further amendment is required to overcome the 101 rejection, the Examiner is requested to contact the undersigned.

### III. CONCLUSION

In view of the foregoing amendments and arguments, it is respectfully submitted that this reissue application is in condition for allowance. If the Examiner believes that prosecution and allowance of the application will be expedited through an interview, whether personal or telephonic, the Examiner is invited to telephone the undersigned with any suggestions leading to the favorable disposition of the application.

It is believed that no additional fees are due for filing this Response. However, the Director is hereby authorized to treat any current or future reply, requiring a petition for an extension of time for its timely submission as incorporating a petition for extension of time for the appropriate length of time. Applicant also authorizes the Director to charge all required fees, fees under 37 C.F.R. §1.17, or all required extension of time fees, to the undersigned's Deposit Account No. 50-0206.

Respectfully submitted,
